

March 4, 1981

LB 325

to do the plan and come up with viable options by December of this year. As I wouldn't come back and ask for another extension.

SENATOR MOORE: You find there is a proper cattle pond in place to move things along here done by...

SENATOR MORRISSEY: I think so. We have all the people up and running. They have been out investigating landfills and we had some problems with our original meeting schedule, and we got that solved. We got the consultant, the subcontractor on board to get these meetings up and rescheduled, and we are ready to roll now.

SENATOR MOORE: And the funding is all financed with the A bill we passed last year, 163?

SENATOR MORRISSEY: We initially appropriated 500,000 with the intention to appropriate a second \$500,000, the way...we still have approximately 100 plus thousand dollars left that we are holding back, as I envision it, to use for unforeseen circumstances as we move through the planning process, but we will not be asking for the second \$500,000.

SENATOR MOORE: Okay, thank you very much, Senator Morrissey, and I, too, urge the body to advance LB 325.

PRESIDENT MOUL: Thank you, Senator Moore. Seeing no one else wishing to debate the issue, do you have closing, Senator Morrissey?

SENATOR MORRISSEY: Simply to say, Madam President, that I urge the colleagues to support the legislation and I will be talking to the Speaker to make sure we get it moved through in a timely fashion, so the consultant can make the proper time line changes on their planning effort. Thank you.

PRESIDENT MOUL: Thank you, Senator Morrissey. We will now proceed to vote on the advancement of LB 325. All those in favor please vote aye, opposed nay. Have you all voted? Please record, Mr. Clerk.

CLERK: 28 ayes, 0 nays, Madam President, on the advancement of 325.
